INSIDE

MAIN LOOK OUTSIDE

Sit in any seat of the all-new Maxima and experience the dramatic effects of having more view than roof. Prepare for your perception to be altered: the generous Skyview™ roof spans the arched roofline from front to back, making the cabin feel roomy and bright. The newfound natural light

plays off the available brushed metal console and dash, making the atmosphere even more dramatic. And, if for any reason you want to block out your view of the sky, just draw the sliding shade, and enjoy being inside.

EXPLORE

You'll do a double take: the all-new Maxima is more modern, more sleek, and more sporty than before. In part, it's the generous modern Skyview™ introduced into the roof, done without compromising any safety standards. But it's also the arched lines and broad planes—your vision of what muscular, chiseled, and bold mean will be instantly redefined. Look closer and you'll see this same aggressive exterior styling in the oversized wheels and the boldly sculpted fender openings. Look again and notice its continuously strong character line, distinguished by the distinctive fastback silhouette. All of these elements seem to say, "Take another look."
