Business

When specific business needs meet reliable wireless solutions, the results are powerful.
Verizon Wireless is obsessed with being the network more businesses count on for extensive coverage and superior performance. Find out what 33.3 million diverse voice and data customers already know about doing business with America's largest network.

- Both our voice and data networks stretch coast to coast, reliably covering major business markets throughout the nation
- We offer a range of convenient calling plans for the very latest wireless equipment,
- Our advanced data solutions offer remarkable freedom to the business professional - send and receive email, share sales information, and manage virtually all daily tasks while in or out of the office.

Rely on our experienced Business Specialists to listen to your particular needs, assess your current service, help determine your priorities, and then recommend cost-effective wireless solutions. We can tailor a powerful mix of innovative products and services across four key areas: **Voice Tools, Remote Access, Office Email & Organizer, and Custom Solutions.**

Mobile Professional
 You're part of a large company or building your own business, and you're constantly

Small Office/Home Office
